## PROFESSIONAL SUMMARY

As a dedicated software engineering student, I've gained hands-on experience in full-stack development and database management, mastering MySQL, Java, and the MERN stack. I've led and delivered several major academic group projects, showcasing my technical expertise, collaborative problem-solving skills, and knack for turning complex requirements into working solutions. Passionate about continuous learning and innovation.

## TECHNICAL SKILLS

- JAVA
- MySQL
- JavaScript
- C
- HTML
- CSS
- Git
- MERN Stack

## EDUCATION

**Bachelor of Technology ( Computer Science & Engineering ) || JIS UNIVERSITY**

- Achieved average CGPA : 8.23 [ 2022 - 2026 ]

**Higher Secondary Education [ 12 ] ( Science ) || Natuk Vivekananda Bidyamandir, WBCHSE**

- Percentage: 82% [ 2019 - 2021 ]

## RELEVANT COURSES

- Data Structures & Algorithm
- Object Oriented Programming
- Operating Systems
- Computer Networking
- Compiler Design
- Cryptography

## SELECTED PROJECTS

**LIFE LINK - Healthcare Management System**

[GitHub Repositories](#)

- Life Link is a full-stack healthcare web platform
- Robust, JWT-based secure login and session management
- AI-powered chatbot for real-time patient assistance
- Online doctor appointment booking and calendar integration
- **Technologies Used:** React.js, Node.js, Express.js, MongoDB, JWT

**QUICK STAY - Hotel Booking System**

[Live Link](#)

- Quick Stay is a full-stack hotel booking web platform
- Robust, JWT-based secure login and session management
- Booking calendar integration and real-time availability checks.
- Input validation in both client forms and server (using libraries like express-validator)
- **Technologies Used:** React.js, Node.js, Express.js, MongoDB, JWT

## HOBBIES/INTERESTS

- Playing Cricket
- Puzzle Solving
- Technical Reading
